NOTE—Contn. sheet.

GPB—70,000—17-12-15.

STRICTLY CONFIDENTIAL.

NOTE OF THE FIRST MEMBER OF COUNCIL ON THE ARRANGEMENTS TO BE MADE IN THE GEOLOGICAL DEPARTMENT DURING THE PERIOD OF DR.SMEETH'S LEAVE.

.....

In the submission note of the Dewan dated the 15th December 1914, it was stated that the training of the local people in Geology and practical mining so that they may be of help to local capitalists desirous of starting mining and mineral industries, was very important. In the re-organization of the Department that took place in February 1915 the future work and developments were classified under four heads:-

(i) Geological survey and exploration.

(ii) Inspection of mines and explosives.

(iii) Production of minerals and development of metallurgical industries on a commercial scale; and

(iv) Training of Geologists, mining engineers and prospectors.

The Department was called the Department of Mines and Geology and bifurcated into two branches, viz: (1) Inspection of Mines and (2) Geological Survey and prospecting.

Now Dr.Smeeth is going on long leave and in all probability not likely to return. The arrangements he recommends are:-

Mr.Jayaram the senior and the most experienced officer on the Geological side should be put in charge and thus given an opportunity to exercise administrative and directive functions with an allowance of Rs.150 per mensem;

Mr.Bocquet should be entirely responsible for mining and prospecting work with an additional allowance of Rs.100.

The subsidiary proposals are:-

Mr.Sampat Iyengar to officiate as Senior Geologist vice Mr.Jayaram and

Mr.Venkataramaiya to officiate as Assistant Geologist.

As regards the latter, he has been nominated on the principle of rotation and such nomination is not intended to operate as supersession of Mr. Balaji Rao.

I have discussed the whole question with Dr. Smeeth at great length on the 28th instant. He represents that the mining branch of the Department will eventually have to be completely separated under a special expert head and that he personally knows nothing of mining but continued to be head as that branch developed during the term of his office as head of the Department; that a mining specialist is not fit to be put in charge of the Geological Department nor a Geologist to be put in charge of the mining Department, that the bifurcation suggested by him as a temporary measure will have to be made permanent in course of time and lastly, he urges that it was at no time ~~intended~~ the intention of Government so far as correspondence will show to make Mr Bocquet the Chief Inspector of Mines in Kolar only as recently laid down in a recent Government order. Mr.Bocquet has been designated as Chief Inspector of Mines in Mysore throughout since the date of his appointment to that office. He is mentioned

as such in the Civil List and it would be hard ~~on the one hand~~ to make him the head of the Department being the next senior officer as at present constituted so far as the Geological section is concerned which won't ~~bring him~~ get any promotion whatsoever.

I have looked into the past correspondence on the subject of the re-organization as well as the appointment of Mr.Bocquet and I find a ~~paper~~ paper dated 12.8.1903 from the Secretary to Govt: to Dr.Smeeth which conveys the sanction of the Government of India to the appointment of Mr. Bocquet as an additional ~~officer~~ Inspector of Mines in Mysore on a salary of Rs.550-50-1000. It does not appear that subsequent to that order any special jurisdiction was given to Mr.Bocquet so far as inspection of mines was concerned. In the note dated 9th February 1915 of the Geological Secretary it was stated that outside of the Kolar Gold Fields a good deal of mining and deep prospecting have been going on and that inspection of mines as required by the Regulation and Rules is a large and serious portion of the work of the department. Dr.Smeeth's view then was that the Chief Inspector of Mines should have the status of the head of a Department so as to maintain in respect of the officers of the mines with whom he may be in a position of comparative equality, some prestige. He also stated in a previous note dated 27th August that it was essential that the executive work of the inspection of mines and inspection of explosives should devolve on separate specially qualified officers and that the Director should be set free for his

proper work.

Government have now to face the problem of bringing a workable arrangement into force during the absence of Dr.Smeeth, having also in - view the possible contingency of his not returning to duty.

Taking into consideration all the circumstances, the arrangement suggested by Dr.Smeeth appears to me to be most suitable for the present. But I would add a modification to the effect that Mr.Bocquet should be given the position of Chief Inspector of Mines in Mysore during the period of Dr.Smeeth's leave and authorized to correspond direct with the Secretariat in all matters relating to mines because Mr.Jayaram can only be a post office in such matters having no experience in mining. This arrangement will not also hurt the feelings of Mr.Bocquet or Mr. Jayaram and Mr.Jayaram should be made the head of the Geological survey and prospecting section of the Department and given the maximum of his grade Rs.700 or in other words an additional allowance of Rs.150 per mensem as suggested by Dr.Smeeth. For the additional responsibility thrown on Mr.Bocquet who till now has been working under Dr.Smeeth and who will have to assume greater responsibility direct under Government I have no objection to give him an additional allowance of Rs.100 as proposed. The other arrangements recommended seem suitable and there appears to be no objection to sanctioning them.

Secretary to Government,
General Department.

WD—166—GPB—1,000—19-7-1

7

15) **Final Note by the First Member of Council.**

Subject:—

Dr.Smeeth, Director, Department of Mines and Geology, has applied for three months' privilege leave combined with furlough for one year with effect from the 16th October 1916, in continuation of the Dasara holidays preceding. The leave is required by him on the ground of ill-health and may be sanctioned.

2. As regards the arrangements for the conduct of work during Dr.Smeeth's absence, the Council agree with him that Mr.B.Jayaram, Senior Geologist, may be placed in charge of the office of Director, Mr.P.Sampatiengar being appointed to officiate as Senior Geologist and Mr.B.N.Venkataramaiya as Assistant Geologist. These proposals may be approved.

3. Mr.R.Bocquet, Chief Inspector of Mines is the most senior officer in the Department, but there are practical difficulties in placing him in charge of it on account of the statutory work of the inspection of mines on the Kolar Gold Fields, for which he is entirely responsible. It is therefore proposed to leave Mr.Bocquet undisturbed but in that case, he cannot be placed in subordination to Mr.Jayaram, who knows nothing of mining work. The Council, therefore, resolved that Mr.Bocquet may be authorized to address Government direct. The question of allowances may be separately considered. My views on the subject are embodied in a confidential note which is in the file.

COMPTROLLER'S OFFICE.

Finl.]

No. 3

BANGALORE,

Dated 10th July 1916

Leave Certificate.

Certified that Dr W F Smeeth M A D Sc ex Director Department of Mines and Geology in Mysore under the Mysore Government is entitled to Combined leave for one year Eight months Seventeen days on 30 September '16 of which 3 months will be privilge leave and the rest furlough leave under Article 150 of the Mysore Service Regulations.

Forwarded to the Director Department of Mines & Geology in Mysore Bangalore with reference to his docket No. 22 dated 14 July 1916.

R Bhashyam Ayyangar

Asst. Comptroller.

Note on Acting arrangements during absence of the Director on leave.

The acting arrangements present several features of difficulty both in regard to the carrying on of work and the reasonable claims of officers to consideration.

2. Mr. Bocquet is of course the Senior Officer and is the fit and proper person to officiate as Director of the Department. The statutory work of the Inspection of Mines has however got to be kept up and it would be quite impossible for Mr. Bocquet to arrange for this if he acted as Director which would take up practically all his time. I have explained this to Mr.Bocquet who quite recognizes its cogency and has loyally consented to waive his claims and support the arrangements which I have proposed.

3. Mr. Jayaram is the Senior and most experienced officer on the geological side and it is very desirable that he should have an opportunity of exercising administrative and directive functions and I accordingly propose that he should Act as Director and that technically he should be placed in charge of the office of Director which will give him an allowance of Rs.150.

4. I do not suggest that he should be officiating Director as that would be unnecessarily hard on Mr. Bocquet from many points of view and Mr. Bocquet will have to be entirely responsible for the mining and prospecting work and advise Mr. Jayaram on matters which may have to be submitted to Government.

5. As a compensation to Mr. Bocquet for the position in which he will be placed and in view of the added work and

responsibilit,

responsibility which will attach to him during my absence I would ask Government to give him an allowance of Rs.100 during the time the arrangements remain in force.

(2)

6. The total acting allowance on my pay is Rs.300 and the above arrangement will absorb Rs.250 of this and divide it between the two officers responsible without creating two acting appointments. Mr. Jayaram's whole time will be fully occupied with the work he will have to do in his acting post.

7. I propose that Mr. Sampat Iyengar should officiate as Sehior Geologist, vice Mr. Jayaram. This will not give him any pecuniary advantage as he is already drawing more than the minimum pay of the grade, but it is a recognition of his standing and position which should not be lost sight of.

(3)

8. With regard to Mr. Venkataramaiya I am glad to be able to give him the chance of officiating as Assistant Geologist - such chances being very few and far between in so small a staff.

9. Both Mr. Balaji Rao and Mr. Venkataramaiya have been working very well and as I have pointed out before their pay is low for the length of service thay have put in and affords them little prospect or encouragement. The chance of a temporary increase should therefore not be lost. Unfortunately there is only one post and only one of them can take it and I have selected Mr. Venkataramaiya simply by rotation as Mr.Balaji Rao was given the last officiating job. In making this selction I think it very necessary to state that I have no intention, at present, of making any distinction between these officers, both of whom I consider to be equally eligible, but as only one can be chosen I have taken the one whose turn it is to act.

10. I trust Government will approve of and sanction my proposals which have had mature consideration and are, I think, as fair a solution of a rather complex situation as it is possible to obtain.

11. In conclusion, I should be much obliged if Government will kindly sanction the leave applied for at a very early date to permit of my making necessary arrangements in good time.

Separately Rcbd

Referred to Financial Sight for opinion 29-9-16

In continuation of my letter No.972, dated 27th Sept. 1916, I have the honour to point out that your letter No.G.4154-Geol. 7-16-3, dated 20th September 1916, referred to therein, is silent on the question of the allowance proposed by me for Mr. R. Bocquet, Chief Inspector of Mines, for the period his appointment to be in independent charge of the Mining Branch of this Department during my absence on leave. During the said period Mr. Bocquet will be the Head of the Mines Branch of the Department with an ~~extra~~ extended jurisdiction over the whole of the State and is, I think, fairly entitled to the special allowance of Rs.100/- per mensem proposed by me. I solicit, therefore, the favour of an early sanction of Government to the same.

I have the honour to be,
Sir,
Your most obedient servant,

Director,
Department of Mines & Geology.
